Angels Bakes n' Cakes Business Highlight

The environment is very welcoming, but it's really the owners that make the experience memorable. Their faces glowed when sharing products they offer and memories of time spent with clients, from watching children and families grow over the years to being included in their special days or events. It is very rare to hear about businesses being invited to their client's special moments, but this is a rare business with the most spectacular owners. These women are known to work miracles: Short notice cakes orders (basic decoration only requires a few hours' notice), custom parties, tutorial events, 3D cakes and more! They feel every person deserves a customized and affordable cake and that is just what they deliver.

"Downriver Rocks!"

The simplest gestures can often create the biggest smiles. The Downriver community has started its newest trend "Downriver Rocks!" which is bringing a moment of happiness to people of all ages.

What is Downriver Rocks?

People of all ages are participating in painting, hiding, and finding rocks all over Downriver Michigan.

How can this benefit your business?

This is a great way to be involved in the community. Some businesses are getting brand awareness by hiding rocks at or near their business and around the city with a sticker on the back promoting their company name *some are offering a small gift if returned to the business*

If you would like to get involved, check out the Facebook page

Almost all rocks found are pictured on the page and it has over 13,000 followers.
